Yorabode

She was unable to find home products that felt evocative of this province, so Emily Campbell decided to try her hand at making. With some foraged spruce needles and essential oils, Emily attended her first market in 2017, where she sold (just) enough to pay for her table. A year later, she left her job as an architect and jumped in with both feet. Now a small team, Yorabode operates out of a dedicated studio space in downtown St. John's, Newfoundland and Labrador, where they craft home goods that you've probably smelled the likes of, except in the woods.

Stitched By April

I am a modern artist under the name of Stitched by April. I appreciate creating contemporary pieces that incorporate our history and traditional materials. For instance, my signature earrings are made with sealskin and fox fur. Additionally, I incorporate symbols such as caribou tracks, moose tracks, salmon skin and inuk-shuks — all symbols of my culture — into my designs. I am constantly exploring new variations of designs for future creations and consider where the materials come from and new ways that I can incorporate education into my projects.

Roselle Doyle Art

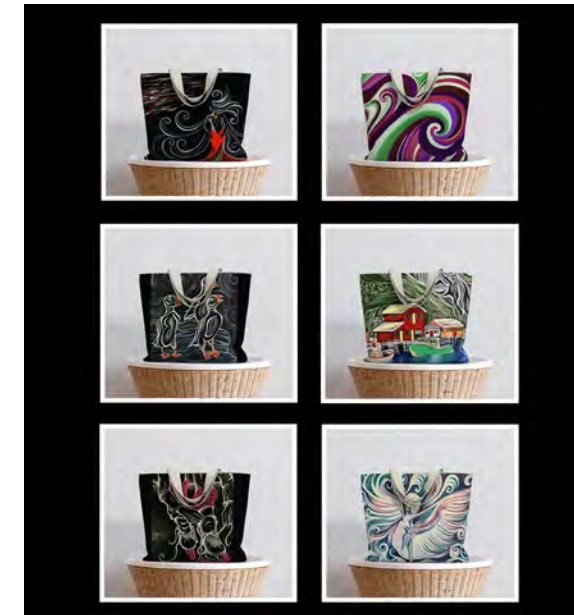

Roselle Doyle is a visual artist with a very kinetic style that embraces emotions and movement and transfers this essence to the canvas. Because of her profession as a figure skater and dancer, she considers her style of motion to be very fluid, thus her painting is an extension of this, with a unique swirling effect that she likens to not only the way her body moves in the space around her, but also to the patterns made on the ice, carved by a skate blade. Currently selling originals, art prints and cards, and other printed products such as tote bags, clothing and more.
